DESCRIPTION:

We have decided to built a ecommerce App in which a user can buy and sell items. This app will contain Admin Panel, Checkout, Cart ,session management and some other functions.

TOOLS:

- Android Studio
- JAVA
- FireBase Database

SCOPE:

As sir we all know Most the business are coming online and the People need some platform to sell there products. So this app will help the user to Buy and Sell item from there home with the help of internet
